Statement by Gov. Perry Regarding Senate Passage of Choose Life License Plate

AUSTIN – “I am pleased the Senate has passed legislation authorizing the creation of a Choose Life specialty license plate. Texans have long been able to support their causes in this way, so I’m glad they can do so now to assist pregnant women who are considering adoption as an alternative to abortion for their unborn children.”

“This license plate will give Texans a subtle but meaningful way to express their personal views, while supporting pregnant women making the decision to choose adoption. I applaud Sen. Carona and Rep. Phillips for sponsoring this bill.”
